Governance Fundamentals

What is Governance anyway?

Nonprofit governance is the provision of guidance and direction to a nonprofit organization so that it fulfills its vision and reflects its core values, while maintaining accountability and fulfilling its responsibilities to the community, its constituents and government with which it functions.

The Alliance for Nonprofit Management's Governance Affinity Group

PURPOSE

The board is a surrogate public, representing the public's interest as it carries out its programs and activities. As a surrogate public the board's accountability is external and directed at the state attorneys general and the IRS.
